7 February 2022

H.E Mr Alfred Mutiwazuka

The Ambassador Embassy of the Republic of Zimbabwe 39 Filistin Caddesi Cankaya, Ankara Turkey

Your Excellency,

Official Invitation to Participate in the 62nd Edition of the Zimbabwe International Trade Fair 26-30 April 2022

On behalf of the ZITF Company, I have the pleasure of extending this formal invitation to your embassy to canvass participation of Turkish companies in the 2022 edition of the Zimbabwe International Trade Fair (ZITF) scheduled for 26-30 April.

ZITF 2022 will be the 62nd edition of the multi-sectoral trade showcase. The exhibition is being held at a time when the world is gradually experiencing an economic rebound post the devastation wrought by COVID-19. Disruptions over the last two years exposed fissures in local and international supply chains thereby highlighting the need for organisations and economies to understand their supply chains extensively and in broader dimensions. Running under the theme "Rethink, Reimagine, Reinvent Value Chains for Economic Development," the trade show rallies participants to become future disruptors who are able to craft and implement strategies for agility, adaptability and resilience as the environment and needs of our economies change. This theme positions ZITF 2022 as the ideal platform to drive "next" normal thinking as well as focus on the structural transformation required for supply chain optimization. By coming together at the trade showcase, various economic players can reinforce existing value chains and create more flexible, agile and resilient ones. In addition to offering unparalleled opportunities for the international community to interact with Zimbabwean brands, products, services and business people, the show will be an opportunity to buttress the success of the previous edition and reaffirm the exhibition's positioning as the premier platform for business exchange.

EVENT DETAILS

The first three days (26-28 April) of the show are reserved specifically for business-to-business interaction thereby providing a networking platform for suppliers and visitors to conclude business deals at the highest decision-maker level. VALUE CHAINS FOR ECONOMIC DEVELOPMENT

The global COVID 19 pandemic has provoked widespread dialogue about the kind of future the world should look forward to after the crisis. Many of the changes wrought bythe pandemic are transient while a significant number will form the basis of our "next normal."However, what is undisputed is that the crisis marks a critical juncture that could lead to decisive changes in the world's trajectory. In particular, it can open the door to new, more sustainable ways of producing and working as well as to a rethinking of how and where we want to live.

ZITF: A Constant in an Uncertain World

Six decades into its existence, the Zimbabwe International Trade Fair remains the country's leading trade & investment platform and premier networking event, connecting Zimbabwean businesses to the region and beyond. Following the safe and success hosting of the 2021 show (the first international trade show to be held within the region in the midst of COVID 19 pandemic); the fast paced and dynamic trade show returns to its usual calendar placement. The event theme Rethink, Reimagine, Reinvent, Value Chains for Economic Development rallies participants to adaptability and resilience by highlighting the need to be able to identify future disruptors, craft and implement change strategies as well as inculcate the agility to adapt the game plan as the environment and needs of our businesses/economies change.

During the last two years, supply chains, which lacked global resilience, broke down in the face of multi-country lockdowns. The disruptions highlighted the need for organisations to understand their supply chains extensively and in broader dimensions. The ZITF 2022 theme locates the event as the ideal platform to focus on the structural transformation required for supply chain optimization. By coming together at the trade showcase, various economic players can strengthen existing value chains and create newer, more resilient ones.

COVID 19 RESPONSE

ZITF 2022 comes at a time when the exhibition organiser is better informed on hosting a show in the midst of a pandemic and regards the safety of all our exhibitors, partners, visitors, contractors and staff with high priority. In line with the latest guidance from the Ministry of Health & Child Care we have put the following measures in place:

Testing

- All participants will be required to produce a negative COVID-19 test result (PCR or Antigen) taken within 48 hours of the beginning of the show.
- Mobile testing points will also be available at the venue, and these will be at participants cost.

Sanitization

- Temperature checks will be done at all entrance points and randomly around the exhibition centre.
- Use of hand sanitizers at gates, exhibition hall points of entry and exit, registration and information desks as well as other strategic locations within the venue.
- Frequently touched surfaces within the venue will be cleaned and disinfected at least daily or in-between uses as much as possible -for example, door handles, sink handles, hand railings, and cash registers. Similarly, shared objects will be cleaned and disinfected between uses-for example, payment terminals, tables, and countertops.

Hand Hygiene and Respiratory Etiquette

- Face covering (safely covering nose and mouth) is mandatory for exhibitors, visitors, contractors, and exhibition staff throughout the duration of the event.
- Participants are encouraged to practice frequent handwashing using soap and water for at least 20 seconds. Handwashing stations will be available at numerous strategic locations throughout the venue.
- If handwashing station is not ion easy reach, participants can use hand sanitizer that contains at least 60% alcohol and rub their hands until dry.
- Participants are discouraged from using physical contact greetings such as handshakes, fist bumps, and high-fives or hugs

Numbers Management

- Ticketing and issuance of badges from both our Bulawayo and Harare offices will be done a month in advance and mailed to exhibitors to avoid office congestion in the days leading to the show.
- Number of people per stand/hall/venue at any given point in time will be limited depending on the size of the stand/venue/hall. Participants are encouraged to pre-schedule their meetings.
- Hybrid format (on-site + virtual) will be adopted for our conferences to reduce numbers of people physically present at the conference venue.

Communication

- Participants can expect to see numerous signs in highly visible locations (e.g., at entrances, in restrooms) that promote everyday protective measures and describe how to stop the spread of germs. Additionally, COVID-19 Safety Police will be on-site to monitor and encourage compliance with regulations.
- Regular announcements on reducing the spread of COVID-19 will be broadcast on the public address systems.
- Frequent communication with attendees via advertising media, etc. about health and safety expectations during the exhibition.

Modified layouts

- Venue layouts will be modified to limit attendance based on seating capacity and allowing for social distancing.
- There will be use of multiple entrances and exits, and crowded waiting areas will be strongly discouraged.
